

1) Effettuo l'accesso con l'utente "Chiara".

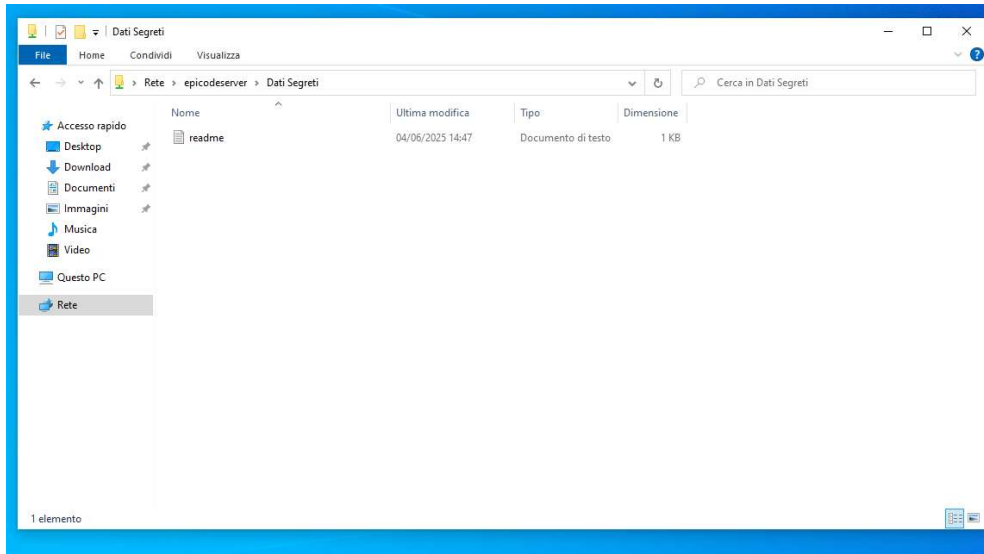

2) Accedo ad esegui e apro "\\epicodeserver".

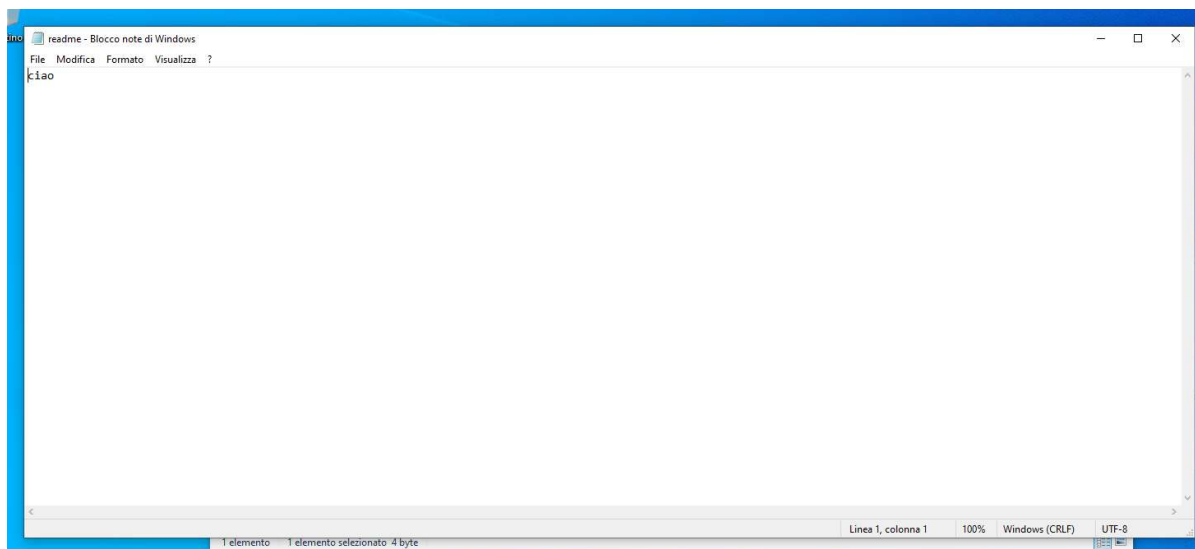

3) Visualizzo le cartelle condivise.

4) Entro dentro cartella “Dati segreti” dove l’utente Chiara ha tutti i permessi.

5) Apro il file.

6) Provo ad effettuare l’accesso alla cartella “Dati top”, ma correttamente mi viene negato l’accesso perché non ho i permessi.
